Digital Product Manager with 3 years of experience in digital environments, with a background in marketing and innovation and experience with B2C models (ecommerce, marketplace, SaaS). Focused on driving business objectives through user-centered products and solutions. I stand out for my structured approach, results orientation, and ability to lead initiatives end-to-end.

I work closely with stakeholders, involving them from requirements gathering to align business needs, user needs, and execution. I bring an empathetic and assertive way of working, combining creativity, data analysis, prioritization, and focus on delivery with impact.

I also integrate AI tools to streamline processes, improve decision-making, and accelerate the execution of digital initiatives.

EXPERIENCE

Product Manager Operations & Marketing Specialist
